

MTA Newcastle Scholarships Digital Upload Criteria

ADDENDUM: YouTube Upload Instructions

1. Navigate to YouTube
2. Sign in to your account. If you do not have an account, create one.
3. In the top right corner, click CREATE, and then UPLOAD VIDEO.
4. An UPLOAD VIDEOS page should appear. Click “select files” and select the video recording you intend to upload. Select “open”.
5. You will see a “video playback” screen where you can then add details about the video you are uploading. Enter your full name and award category. Scroll down to the “audience” section on the same page and select “yes, it’s made for kids”, then select “next”.
6. A “video elements” screen will pop up. There is nothing to add here, so click “next”.
7. A “visibility settings” screen will load. Please select “unlisted” and click “save”.
8. You will see a “video published” screen. This is where you copy the YouTube video link that has been created. Click the double square located next to the video link, then click “close”.
9. In your Trybooking application paste the YouTube link to your video submission where indicated.

PLEASE NOTE: it is the responsibility of the entrant to ensure that all links are correct and accessible. If the adjudicator is unable to view a video, the entry will be deemed “unable to assess”.
